Fixed Income Analyzer
FOR TRAINING COMPANIES

FOR FIRMS THAT DELIVER FINANCE TRAINING

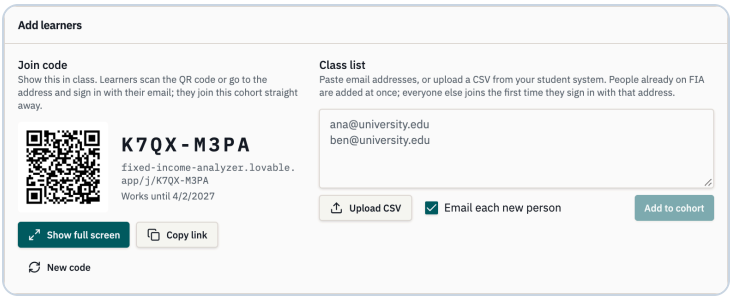

Run hands-on fixed-income courses for every client, without building the tools yourself.

27 professional analytics tools, ready-made labs and a reviewed question bank in the browser. Each client cohort has its own enrolment, gradebook and reports.

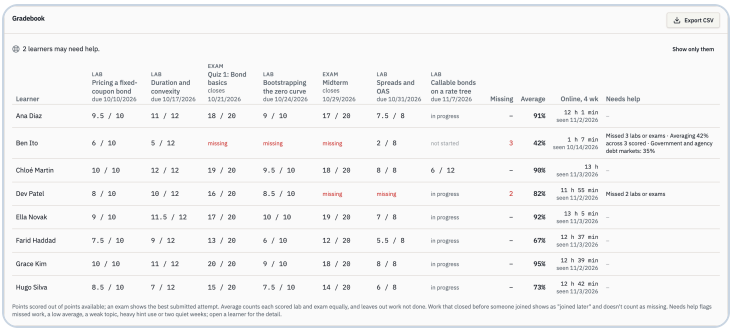

27	40	1,400	50
analytics tools	reviewed labs	reviewed exam questions	curriculum topics

FOR YOUR DELIVERY TEAM

- **Ready to teach.** 40 reviewed labs on a 50-topic curriculum, from time value and curves to credit, derivatives and risk. Use them or adapt them per client.
- **A client cohort in minutes.** Show a join code in the room, or upload the attendee list. Attendees sign in with an emailed code, on any machine.
- **Pre- and post-course tests.** Built from the reviewed bank, timed or untimed, with item statistics.
- **Support between sessions.** The AI tutor answers questions on every tool, at the level you set for each cohort.

Add a cohort's attendees with a join code or their email list.

Each client cohort's gradebook, ready to export for the client's records.

WHAT CLIENTS ASK FOR

Proof of completion
A gradebook per cohort, exported to CSV, with scores and an average per attendee.

Who needs follow-up
Flags for low scores, weak topics, missed work and attendees gone quiet.

Engagement
Time online, visits and the tools each attendee used.

Their own cases
Labs built on the client's portfolio or scenarios, beside the library.

1. **Set up.** Your company is one organization in FIA, with your trainers in it.
2. **Per client.** Each client programme is a cohort, with its own attendees, labs and exams.
3. **Deliver.** Teach on the tools in the room, with labs and the tutor between sessions.
4. **Report back.** Export each cohort's gradebook and engagement for the client.

Coming next: sign-in with your clients' own logins (SSO), and LTI 1.3 for their learning platforms.
